Katy Perry Pays Russell Brand a "Rock of Ages" Visit

Visiting her man at his new gig, **Katy Perry** checked in on **Russell Brand** on the set of "Rock of Ages" yesterday afternoon (June 1).

The "Firework" singer was all smiles as she met up with her "Get Him to the Greek" hubby - who looked like a genuine hair metal musician with his frizzed-out coif, Japanese t-shirt and black distressed jeans.

Russell will play the role of Lonny, the film's somewhat spastic narrator, and he has an ensemble cast to keep track of.

Also starring in the flick are Julianne Hough, Diego Boneta, Malin Akerman, Alec Baldwin, and Tinseltown veteran Tom Cruise.
